

# Hystrene® 9718

## Description

Hystrene® fatty acids are the highest purity fatty acids offered by PMC Biogenix and are among the finest available commercially.

Hystrene® 9718 is available in flake, powder or molten forms.

Vegetable, Food Grade, and Kosher versions are also available. All NF designated products are produced consistent with the requirements of the National Formulary.

## Applications

Hystrene® fatty acids are characterized by light colors and excellent oxidative and thermal stability. These properties make the fatty acids adaptable to a wide range of applications, including:

- Personal Care
- Food Grade Ingredients
- Waxes
- Mold Release
- Paints & Printing Inks
- Plastics & Polymer Additives
- Rubber Compounding
- Water Repellents
- Textile Auxiliaries
- Crayon & Candle Manufacturing

## Properties

Properties	Typical Value
Acid number	198
Melting point	67° C
C18	92%
Lovibond Color	R 0.1 max / Y 1.0 max

These are typical values. Each material number will have its own specifications.
